

Universal Probe SPI Writer

Release Note

Date:25-Dec-2014
Sohwa & Sophia Technologies Inc.

This release note applies to the Universal Probe SPI Writer and contains updated information as follows:

Product number	Product name	Latest Version
UP0005	Universal Probe SPI Writer	1.0.4.0

Version 1.0.4.0

(1) Available to support added SPI devices

- adesto technologies
 - AT45DB021E (Page Size 256Bytes)
 - AT45DB041E (Page Size 256Bytes)
 - AT45DB081E (Page Size 256Bytes)
 - AT45DB161E (Page Size 512Bytes)
 - AT45DB321E (Page Size 512Bytes)
 - AT45DB641E (Page Size 256Bytes)

Version 1.0.3.0

(1) Available to support added SPI devices

- Standard 16 bit address (2Bytes per Write)
- Standard 16 bit address (4Bytes per Write)
- Standard 16 bit address (8Bytes per Write)
- Standard 16 bit address (16Bytes per Write)
- Standard 16 bit address (32Bytes per Write)
- Standard 16 bit address (64Bytes per Write)
- Standard 16 bit address (128Bytes per Write)
- Standard 16 bit address (256Bytes per Write)
- Standard 16 bit address (512Bytes per Write)
- Standard 16 bit address (1024Bytes per Write)
- Standard 24 bit address (2Bytes per Write)
- Standard 24 bit address (4Bytes per Write)
- Standard 24 bit address (8Bytes per Write)
- Standard 24 bit address (16Bytes per Write)
- Standard 24 bit address (32Bytes per Write)
- Standard 24 bit address (64Bytes per Write)
- Standard 24 bit address (128Bytes per Write)
- Standard 24 bit address (256Bytes per Write)
- Standard 24 bit address (512Bytes per Write)
- Standard 24 bit address (1024Bytes per Write)

Version 1.0.2.0

(1) The fault of registry registration of product information was corrected.

Version 1.0.0.0

First release version
